PROFESSIONAL DEMOLITION

international

Professional D

The international demolition, concrete cutting, concrete

PDi, Professional Demolition International Magazine, founded in 2000 is the only worldwide magazine devoted to serving the entire concrete sawing and drilling, demolition and recycling industries.

A broad coverage

PDi is distributed worldwide to nearly 10,000 companies. It is estimated that each issue is at least read by a minimum of five people within the same company/address. This means that we expect that at least 50,000 people read each issue. Every issue of PDi Magazine always contains interesting and useful information about what is new and what is going on within the demolition, concrete sawing and drilling, concrete floor grinding and polishing, recycling, industrial cleaning and soil remediation industries around the globe.

Each year we publish country surveys including valuable figures, a number of special product features and company profiles. We also regularly estimate the size of the demolition, concrete sawing and drilling, floor grinding and recycling industries in total

and separated country by country. PDi also maintain close relationships with several branch associations which are regularly covered in the magazine.

Growing industries

The total value of the world's professional demolition, concrete cutting, recycling industries and related activities is estimated to be well over Euro 80 billion, and is steadily growing year by year.

Circulation 2011

Breakdown per industry

Demolition contractors	4423
Concrete sawing & drilling contractors	3392
Waste and recycling specialists	387
Floor grinding/renovation	973
Manufacturers, agents and distributors	218
